La Hacienda at La Posada  
Service Package & Fees

## La Hacienda at La Posada (Skilled Nursing Care)

### **Healthcare Certifications, Licensing and Accessibility**

La Hacienda is Medicare-certified and provides skilled and sub-acute care with emphasis on rehabilitation. La Hacienda is licensed by the Center for Medicare Services and the Arizona Department of Health Services.

Residents of the La Posada continuum have priority access to La Hacienda skilled nursing care services, however, La Hacienda is open to the general Green Valley community on a space-available basis and honors contracts with several health maintenance organizations and hospice providers.

### **La Hacienda's Service Philosophy**

Our team of skilled healthcare professionals, led by La Posada's medical director, work in collaboration to ensure our residents receive the physical, social, emotional and spiritual support to achieve maximum independence and health.

La Hacienda is the first skilled nursing environment in southern Arizona to offer a completely unique approach to healthcare service delivery called "person-centered care." At La Hacienda, residents make the daily choices that bring meaning to their life.

As a rehabilitation provider, La Hacienda offers a complete program of inpatient therapies, to include physical, occupational, speech and audiology services. La Posada therapists encourage their therapy participants to be directly involved in their own care, to perform familiar tasks, and to take charge of their recovery process.

Long-term residents of La Hacienda are encouraged to share their life history and to continue to explore the many varied interests that make their life meaningful and enriching.

Families are welcome to participate in all aspects of recovery and supportive care, in keeping with La Hacienda's holistic, person-centered care approach.

### **La Hacienda at La Posada is Working to Meet the Needs of La Posada Residents and Residents of the Greater Green Valley Community**

In 2007, La Hacienda at La Posada completed an 18 month renovation program. In addition to our person-centered care service approach, La Hacienda now offers a residential style living environment complete with private and semi-private suites, most with private baths, a new dining room, living room with a fireplace, spa, family room and library.

In addition to our renovation program, La Posada expanded the La Posada Outpatient Therapies services and opened Green Valley's first aquatic therapy program and pool.

La Hacienda at La Posada exemplifies La Posada's commitment to providing the highest quality health care services to residents of La Posada, and to those residents we serve in the greater Green Valley community.
